

Customer Reviews for Smart Home Improvements

Just take a look at what some of our customers are saying:

"I have worked with Johnny Hempen on a couple of fairly large remodeling projects – I just can't say enough nice things. He's honest, pleasant, prompt. His guys do a great job and are always a pleasure to have on the job site. I've also been really happy with the specialists he has used – plumbers, electricians etc. – and his painting crew is amazing.

They're fast and efficient and can paint a house full of elaborate trim without a single drip.

I've worked with enough contractors and specialists of various sorts to really appreciate someone like Johnny who is competent and efficient and really cares about his customers. I've encountered way too many guys who made my life miserable for the sake of a quick buck.

Johnny goes out of his way to do a great job, and you can't go wrong by hiring him.

"Keith and I are absolutely ECSTATIC about the job you guys did – both siding AND painting. The professionalism and workmanship by you and your workers was top drawer. Johnny, please feel free to use us as a referral in any way you need. We are more than happy to help"

Melody Luschei

"Johnny's team does everything as promised. I speak for everyone here at the office...we're very satisfied with the way Johnny runs his business, and so are the customers we refer them to. Always prompt, courteous and professional. We refer Johnny to our clients."

Hi Johnny: I left you a voice mail. I can write the check tonight. I could mail it or perhaps you could pick it up from Mary tomorrow? Thank you for the great work and very fair charge.

Good call on our Plummer

Johnny,

Your plumber, Chris, is exceptional. He is also just a nice person. He's like a Holmes On Homes kind of guy, very observant. It might have been the rainiest day for the last six months but they were working outside in that rainy outdoor stairwell. Our drain was not a good set up to begin with. And Chris had a real, permanent fix, no, not as cheap as a snake, but something to divert the problem for good. And we know he wasn't making anything up.

Today, the rainiest day in nine months, they began. Chris's brother sacrificed his own vinyl rain poncho for our threshold. He was soaked to the skin. This is not typical. This is exceptional.

We know like you said, that it isn't the cheapest fix possible, but in the long run it will pay off, and we are covered by a real fix, not a fake fix. We are really, just super impressed and will be going with your candidates, for all our future needs. I knew everything Chris said that needed doing, needed to be done, and needed to be done in the way Chris said that they needed to be done. He's also super communicative. Very prompt. Very direct. A breath of fresh air. Yea to Chris Cunningham. Yea to his brother, Greg.

You can be proud of the way they reflect on you. We are Johnny converts. While our current needs are small, just to get into the place, we will call about that, and would like to meet you about those, and we also have a project every season for, well, forever, probably.

Our best, Jackie and Mike Stewart

Thanks Johnny! Keep me posted. Looks like the guys wrapped up today with everything. They left the place clean and tidy. Great crew as an FYI!

You did a very nice job in my bathroom. If you ever need a recommendation you can always use me as a contact. I was amazed how nice everything was left when you were done. It makes a big difference when moving on to next part of the project.

I hope you got the message to mail me a bill, since I am not able to open your attachments.

Thank you again

Thanks Johnny,

Yes, I was very pleased with the work done on the house. I was also pleased with the price. You did an excellent job of keeping me informed even though I wasn't here to witness the job being done. I appreciate everything, and I will refer you to other people when I hear of people needing their house done.
